

Kingfisher Class Spring Term 2 2022

Here is our topic for this half term, please use it to support your child's learning.

As Linguists we will:

- Learn how to write texts that give advice and information.
- Learn how to write about events that happened in the past.
- We will continue to practice our handwriting linked to our weekly spelling words.
- We will learn to organise our ideas into paragraphs, use punctuation and a variety of different grammatical tools.

As Athletes we will:

- Take part in two PE sessions each week.
- One outside and one in the hall.
- We will learn how to play handball and the skills needed.

The Big Question:

Has Greece always been in the news?

As Mathematicians we will:

- Continue to learn the timetables, using TTRS and other fun activities.
- Learn about measurement, mm, cm and m.
- We will convert measurements.
- We will learn how to measure the perimeter of 2d objects.

As Citizens we will:

- Learn about ourselves and how we can contribute positively in society
- Learn what it is like to be Jewish and why the festivals are important.
- Take part in class discussions about our rights and the rights of other people
- Be a part of the school council and nominate

As Geographers we will:

- Learn about maps, and what latitude, longitude and the equator are.
- Learn about countries and continents.
- Learn about the physical features of a country and what makes them similar and different to other countries.
- Identify how certain climates and landscapes make for attractive holiday destinations.

As Scientists we will:

- Learn about the body, what makes it strong and how our muscles and bones function to help us to move.
- Learn about the differences and similarities between animals and humans.

As Computer Technicians we will:

- Learn about databases and how to use and make them.
- Learn about simulations.
- Learn about the importance of online safety.
