

White Rose Maths	<ul style="list-style-type: none"> <li>• Number Place Value (2 weeks)</li> <li>• Number Addition and Subtraction and Multiplication and Division (5 weeks)</li> <li>• Fractions A (2 weeks)</li> <li>• Fractions B (2 weeks)</li> <li>• Converting units (1 week)</li> </ul>	<ul style="list-style-type: none"> <li>• Ratio (2 weeks)</li> <li>• Algebra (2 weeks)</li> <li>• Decimals (2 weeks)</li> <li>• Decimals, fractions and percentages (2 weeks)</li> <li>• Measurement perimeter, area and volume (2 weeks)</li> <li>• Statistics (2 weeks)</li> </ul>	<ul style="list-style-type: none"> <li>• Shape (3 weeks)</li> <li>• Position and Direction (1 weeks)</li> <li>• Consolidation and theme projects (6 weeks)</li> </ul>
Science	<p><b>Evolution and Inheritance</b></p> <ul style="list-style-type: none"> <li>• recognise that living things have changed over time and that fossils provide information about living things that inhabited the Earth millions of years ago</li> <li>• recognise that living things produce offspring of the same kind, but normally offspring vary and are not identical to their parents</li> <li>• identify how animals and plants are adapted to suit their environment in different ways and that adaptation may lead to evolution</li> </ul> <p><b>Classification</b></p> <ul style="list-style-type: none"> <li>• describe how living things are classified into broad groups according to common observable characteristics and based on similarities and differences, including micro-organisms, plants and animals</li> <li>• give reasons for classifying plants and animals based on specific characteristics</li> </ul>	<p><b>Electricity</b></p> <ul style="list-style-type: none"> <li>• associate the brightness of a lamp or the volume of a buzzer with the number and voltage of cells used in the circuit</li> <li>• compare and give reasons for variations in how components function, including the brightness of bulbs, the loudness of buzzers and the on/off position of switches</li> <li>• use recognised symbols when representing a simple circuit in a diagram</li> </ul> <p><b>Light</b></p> <ul style="list-style-type: none"> <li>• recognise that light appears to travel in straight lines</li> <li>• use the idea that light travels in straight lines to explain that objects are seen because they give out or reflect light into the eye</li> <li>• explain that we see things because light travels from light sources to our eyes or from light sources to objects and then to our eyes</li> <li>• use the idea that light travels in straight lines to explain why shadows have the same shape as the objects that cast them</li> </ul>	<p><b>Human Body (respiration and reproduction)</b></p> <ul style="list-style-type: none"> <li>• identify and name the main parts of the human circulatory system, and describe the functions of the heart, blood vessels and blood</li> <li>• recognise the impact of diet, exercise, drugs and lifestyle on the way their bodies function</li> <li>• describe the ways in which nutrients and water are transported within animals, including humans</li> </ul>
<p>During years 5 and 6, pupils should be taught to use the following practical scientific methods, processes and skills through the teaching of the programme of study content:</p> <ul style="list-style-type: none"> <li>• planning different types of scientific enquiries to answer questions, including recognising and controlling variables where necessary</li> <li>• taking measurements, using a range of scientific equipment, with increasing accuracy and precision, taking repeat readings when appropriate</li> <li>• recording data and results of increasing complexity using scientific diagrams and labels, classification keys, tables, scatter graphs, bar and line graphs</li> <li>• using test results to make predictions to set up further comparative and fair tests</li> <li>• reporting and presenting findings from enquiries, including conclusions, causal relationships and explanations of and a degree of trust in results, in oral and written forms such as displays and other presentations</li> <li>• identifying scientific evidence that has been used to support or refute ideas or arguments</li> </ul>			

<p>Geography</p>	<p><b>Location Knowledge</b></p> <ul style="list-style-type: none"> <li>locate the world’s countries, using maps to focus on Europe (including the location of Russia) and North and South America, concentrating on their environmental regions, key physical and human characteristics, countries, and major cities</li> <li>identify the position and significance of latitude, longitude, Equator, Northern Hemisphere, Southern Hemisphere, the Tropics of Cancer and Capricorn, Arctic and Antarctic Circle, the Prime/Greenwich Meridian and time zones (including day and night)</li> </ul> <p><b>Place Knowledge</b></p> <ul style="list-style-type: none"> <li>understand geographical similarities and differences through the study of human and physical geography of a region of the United Kingdom, a region in a European country, and a region in North or South America</li> </ul>		<p><b>Human and Physical Geography</b></p> <ul style="list-style-type: none"> <li>describe and understand key aspects of: <ul style="list-style-type: none"> <li>human geography, including: types of settlement and land use, economic activity including trade links, and the distribution of natural resources including energy, food, minerals and water</li> </ul> </li> </ul>		<ul style="list-style-type: none"> <li><b>Location Knowledge</b></li> <li>name and locate counties and cities of the United Kingdom, geographical regions and their identifying human and physical characteristics, key topographical features (including hills, mountains, coasts and rivers), and land-use patterns; and understand how some of these aspects have changed over time</li> <li><b>Human and Physical Geography</b></li> <li>describe and understand key aspects of:</li> <li>physical geography, including: climate zones, biomes and vegetation belts, rivers, mountains, volcanoes and earthquakes, and the water cycle</li> </ul>	
<p>Pupils should extend their knowledge and understanding beyond the local area to include the United Kingdom and Europe, North and South America. This will include the location and characteristics of a range of the world’s most significant human and physical features. They should develop their use of geographical knowledge, understanding and skills to enhance their locational and place knowledge.</p> <p>Geographical skills and fieldwork</p> <ul style="list-style-type: none"> <li>use maps, atlases, globes and digital/computer mapping to locate countries and describe features studied</li> <li>use the 8 points of a compass, 4- and 6-figure grid references, symbols and key (including the use of Ordnance Survey maps) to build their knowledge of the United Kingdom and the wider world</li> <li>use fieldwork to observe, measure record and present the human and physical features in the local area using a range of methods, including sketch maps, plans and graphs, and digital technologies</li> </ul>						
<p>History</p>	<p><b>Vikings</b> the Viking and Anglo-Saxon struggle for the Kingdom of England to the time of Edward the Confessor</p>		<p><b>Local History</b></p> <ul style="list-style-type: none"> <li>a local history study</li> </ul> <p><b>History since 1066</b></p> <ul style="list-style-type: none"> <li>a study of an aspect or theme in British history that extends pupils’ chronological knowledge beyond 1066</li> <li>The Battle of Britain</li> </ul>		<p><b>Indus Valley</b></p> <ul style="list-style-type: none"> <li>the achievements of the earliest civilizations – an overview of where and when the first civilizations appeared and a depth study of one of the following: Ancient Sumer; The Indus Valley; Ancient Egypt; The Shang Dynasty of Ancient China</li> </ul>	
<p>Pupils should continue to develop a chronologically secure knowledge and understanding of British, local and world history, establishing clear narratives within and across the periods they study. They should note connections, contrasts and trends over time and develop the appropriate use of historical terms. They should regularly address and sometimes devise historically valid questions about change, cause, similarity and difference, and significance. They should construct informed responses that involve thoughtful selection and organisation of relevant historical information. They should understand how our knowledge of the past is constructed from a range of sources.</p>						
<p>Computing Purple Mash</p>	<p>Unit 6.1. Coding  Unit 6.2 Online Safety</p>	<p>Unit 6.3 Spreadsheets Unit 6.4 Blogging</p>	<p>Unit 6.5 Text Adventures Unit 6.6 Networks</p>	<p>Unit 6.7 Quizzing</p>	<p>Unit 6.8 Binary</p>	<p>Unit 6.9 Spreadsheets (Excel or Google Sheets)</p>

<p>In Key Stage 2 - Pupils should be taught to:</p> <ul style="list-style-type: none"> <li>design, write and debug programs that accomplish specific goals, including controlling or simulating physical systems; solve problems by decomposing them into smaller parts</li> <li>use sequence, selection, and repetition in programs; work with variables and various forms of input and output</li> <li>use logical reasoning to explain how some simple algorithms work and to detect and correct errors in algorithms and programs</li> <li>understand computer networks including the internet; how they can provide multiple services, such as the world wide web; and the opportunities they offer for communication and collaboration</li> <li>use search technologies effectively, appreciate how results are selected and ranked, and be discerning in evaluating digital content</li> <li>select, use and combine a variety of software (including internet services) on a range of digital devices to design and create a range of programs, systems and content that accomplish given goals, including collecting, analysing, evaluating and presenting data and information</li> <li>use technology safely, respectfully and responsibly; recognise acceptable/unacceptable behaviour; identify a range of ways to report concerns about content and contact.</li> </ul>						
PSHE	Being Me in My World 'Who am I and how do I fit?'	Celebrating Difference Respect for similarity and difference, anti-bullying and being unique	Dream and Goals Aspirations, how to achieve goals and understanding the emotions that go with this	Healthy Me Being and keeping safe and healthy	Building Relationships Building positive and healthy relationships	Changing Me Coping positively with change
Art (LCC)	To recreate a Viking shield using bold colours To use clay to model winter objects		To discover artists different perspective of wartime London (Imperial War Museum website)		Use water colour to recreate a local scene Investigate Turner's paintings of scenes of settings using watercolours	
<p>In Key Stage 2 -Pupils should be taught to develop their techniques, including their control and their use of materials, with creativity, experimentation and an increasing awareness of different kinds of art, craft and design. Pupils should be taught:</p> <ul style="list-style-type: none"> <li>to create sketch books to record their observations and use them to review and revisit ideas</li> <li>to improve their mastery of art and design techniques, including drawing, painting and sculpture with a range of materials [for example, pencil, charcoal, paint, clay]</li> <li>about great artists, architects and designers in history.</li> </ul>						
DT (LCC)	To plan. design and make a Viking long ship		To investigate diets from World War 2 To learn sewing skills to create something new from an old item of clothing (make do and mend). To use waste materials to create a sculpture of the rainforest		To plan, design and make buildings from the Indus Valley	
<p>Through a variety of creative and practical activities, pupils should be taught the knowledge, understanding and skills needed to engage in an iterative process of designing and making. They should work in a range of relevant contexts [for example, the home, school, leisure, culture, enterprise, industry and the wider environment]. When designing and making, pupils should be taught to:</p> <p><b>Design</b></p> <ul style="list-style-type: none"> <li>use research and develop design criteria to inform the design of innovative, functional, appealing products that are fit for purpose, aimed at particular individuals or groups</li> <li>generate, develop, model and communicate their ideas through discussion, annotated sketches, cross-sectional and exploded diagrams, prototypes, pattern pieces and computer-aided design</li> </ul> <p><b>Make</b></p> <ul style="list-style-type: none"> <li>select from and use a wider range of tools and equipment to perform practical tasks [for example, cutting, shaping, joining and finishing], accurately</li> <li>select from and use a wider range of materials and components, including construction materials, textiles and ingredients, according to their functional properties and aesthetic qualities</li> </ul> <p><b>Evaluate</b></p> <ul style="list-style-type: none"> <li>investigate and analyse a range of existing products</li> </ul>						

	<ul style="list-style-type: none"> <li>• evaluate their ideas and products against their own design criteria and consider the views of others to improve their work</li> <li>• understand how key events and individuals in design and technology have helped shape the world Technical knowledge</li> <li>• apply their understanding of how to strengthen, stiffen and reinforce more complex structures</li> <li>• understand and use mechanical systems in their products [for example, gears, pulleys, cams, levers and linkages]</li> <li>• understand and use electrical systems in their products [for example, series circuits incorporating switches, bulbs, buzzers and motors]</li> <li>• apply their understanding of computing to program, monitor and control their products.</li> </ul>					
MFL FRENCH (Twinkl)	Year 6 Let's Visit a French Town		Year 6 Let's Go Shopping		Year 6 This is France	Year 6 All in a Day
	<p>In Key Stage 2 - Pupils should be taught to:</p> <ul style="list-style-type: none"> <li>• listen attentively to spoken language and show understanding by joining in and responding</li> <li>• explore the patterns and sounds of language through songs and rhymes and link the spelling, sound and meaning of words</li> <li>• engage in conversations; ask and answer questions; express opinions and respond to those of others; seek clarification and help</li> <li>• speak in sentences, using familiar vocabulary, phrases and basic language structures</li> <li>• develop accurate pronunciation and intonation so that others understand when they are reading aloud or using familiar words and phrases</li> <li>• present ideas and information orally to a range of audiences</li> <li>• read carefully and show understanding of words, phrases and simple writing</li> <li>• appreciate stories, songs, poems and rhymes in the language</li> <li>• broaden their vocabulary and develop their ability to understand new words that are introduced into familiar written material, including through using a dictionary</li> <li>• write phrases from memory, and adapt these to create new sentences, to express ideas clearly</li> <li>• describe people, places, things and actions orally* and in writing Languages – key stage 2 3</li> <li>• understand basic grammar appropriate to the language being studied, including (where relevant): feminine, masculine and neuter forms and the conjugation of high-frequency verbs; key features and patterns of the language; how to apply these, for instance, to build sentences; and how these differ from or are similar to English.</li> </ul>					
Music (Charanga)	Happy	Classroom Jazz 2	A New Year Carol	You've Got A Friend	Music and Me	Reflect rewind and replay
	<p>In Key Stage 2 - Pupils should be taught to sing and play musically with increasing confidence and control. They should develop an understanding of musical composition, organising and manipulating ideas within musical structures and reproducing sounds from aural memory.</p> <p>Pupils should be taught to:</p> <ul style="list-style-type: none"> <li>• play and perform in solo and ensemble contexts, using their voices and playing musical instruments with increasing accuracy, fluency, control and expression</li> <li>• improvise and compose music for a range of purposes using the inter-related dimensions of music ♣ listen with attention to detail and recall sounds with increasing aural memory</li> <li>• use and understand staff and other musical notations</li> <li>• appreciate and understand a wide range of high-quality live and recorded music drawn from different traditions and from great composers and musicians</li> <li>• develop an understanding of the history of music.</li> </ul>					
RE	U2.2 Creation and science: conflicting or complementary? UC2b.2  U2.6 For Christians, what kind of king is Jesus?	U2.7 Why do Hindus want to be good?	U2.5 What do Christians believe Jesus did to 'save' people?	UC 2b.6 SALVATION: What did Jesus do to save Human Beings? <b>Easter</b>	U2.11 Why do some people believe in God and some do not?	U2.12 How does faith help people when life gets hard? Christians, Muslims and/or Jews and/or Hindus, non-religious
PE	Gymnastics Dodgeball	Gymnastics Multi skills	Handball Dance	Athletics (Sports day) Health Related Fitness Kwik Cricket Short Tennis		

In Key Stage 2 - Pupils should continue to apply and develop a broader range of skills, learning how to use them in different ways and to link them to make actions and sequences of movement. They should enjoy communicating, collaborating and competing with each other. They should develop an understanding of how to improve in different physical activities and sports and learn how to evaluate and recognise their own success.

Pupils should be taught to:

- use running, jumping, throwing and catching in isolation and in combination
- play competitive games, modified where appropriate [for example, badminton, basketball, cricket, football, hockey, netball, rounders' and tennis], and apply basic principles suitable for attacking and defending
- develop flexibility, strength, technique, control and balance [for example, through athletics and gymnastics]
- perform dances using a range of movement patterns
- take part in outdoor and adventurous activity challenges both individually and within a team
- compare their performances with previous ones and demonstrate improvement to achieve their personal best

Swimming:

In particular, pupils should be taught to:

- swim competently, confidently and proficiently over a distance of at least 25 metres
- use a range of strokes effectively [for example, front crawl, backstroke and breaststroke]
- perform safe self-rescue in different water-based situations
