

As Geographers, our big question is...

What would Traction Man find interesting about our local area?

REMEMBERING Prior Learning

I can name the **key features** linked with a town or village, e.g. 'church', 'farm', 'shop', 'house'

We know we belong to a **community** and that we take part in community events like summer fairs & carol services.

I know **photos, aerial photos and maps** can help us find out about an area.

UNDERSTANDING Sticky Knowledge

I can identify buildings in my local area.

shop

factory

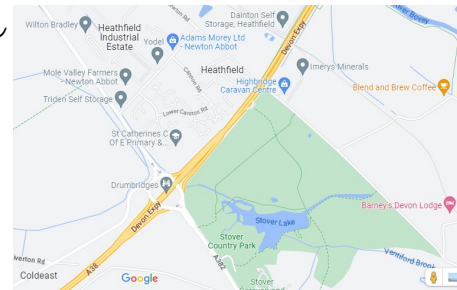

house/home

I know there are compass directions: North, South, East and West.

I know maps have a key and can show physical and human features of an area.

I know what symbols on a map mean.

APPLYING

My Aspiration

I will be able to create a map of my local area and give directions to different places.

Vocabulary

| fieldwork | direction | compass | map | symbol | house |
|--|---|--|--|---|---------------------------------|
| To use maps to go out and about to get a practical understanding of somewhere. | Where someone or something is pointing or moving. | A special tool that helps you know which direction you are facing. | A specially drawn picture of a place from above. | A picture that represents a word or words. They are used on maps. | A building that people live in. |
